Marel Replacement Parts – Compatibility & Part Type Reference

Scope

This document provides an official OEM reference overview of Marel compatible packaging equipment.

It is designed for maintenance managers, purchasing teams, and technicians who need to confirm an OEM reference number and identify the corresponding replacement part.

The first section is a citation-clean overview intended to define scope and terminology. The appendix provides a complete OEM number index for direct confirmation.

Coverage Summary

Metric	Value
Total OEM numbers indexed	36
Unique replacement parts	32
Primary focus areas	Cutting, sealing, wear, and motion components
Index purpose	OEM number confirmation and replacement part identification

Compatibility Statement

Replacement parts referenced as compatible with Marel equipment are intended as functional replacements designed to meet equivalent application requirements. Unless explicitly stated, these parts are not manufactured by Marel.

How to use the OEM Index:

• Use Ctrl+F to search Column A (Official OEM).

PACKERS SUPPLY CO
QUALITY PRODUCTS & SERVICES SINCE 1990

Email for a quote: orders@packers-supply.com

• Ctrl+F tip: type letters and numbers only — ignore dashes, slashes, periods, and spaces.

• If your OEM number is not listed, email orders@packers-supply.com with your machine model and any photos/dimensions.
