Cryovac Replacement Parts – Compatibility & Part Type Reference

Scope

This document provides an official OEM reference overview of Cryovac compatible packaging equipment. It is designed for maintenance managers, purchasing teams, and technicians who need to confirm an OEM reference number and identify the corresponding replacement part. The first section defines scope and terminology, while the appendix provides a complete OEM number index for direct confirmation.

Data Source: Packers Supply internal OEM cross-reference database

Coverage Summary

Metric	Value
Total OEM Numbers Indexed	507
Unique Replacement Parts	211
Primary Focus Areas	Coverage includes common Cryovac replacement part families such as knives, gaskets, seal bars, pins, bushings, electrode components, tapes, rods, guides, levers, rollers, plates, and related hardware/assemblies.
Index Purpose	OEM number confirmation and replacement part identification

Compatibility Statement

Replacement parts referenced as compatible with Cryovac equipment are intended as functional replacements designed to meet equivalent application requirements.

Cryovac® is a trademark of Sealed Air. Packers Supply Company is an independent supplier of OEM-compatible replacement parts and is not affiliated with or endorsed by Cryovac.

How to use the OEM Index:

- Use Ctrl+F to search Column A (Official OEM) OR Column B (Search Key).
- Ctrl+F tip: type letters and numbers only — ignore dashes, slashes, periods, and spaces.
- Column A is a clickable link to that specific product page.
- If your OEM number is not listed, email orders@packers-supply.com with your machine model and any photos/dimensions.

Ctrl+F - Cryovac OEM Number Index

Purpose: This table gives you the specific ability to look up your OEM Number in Column B - "Search Key". Type in your OEM Ctrl+F without dashes, slashes, periods, and spaces. Column A is the official OEM Number.
