Multivac Replacement Parts – Compatibility & Part Type Reference

Scope

This document provides an official OEM reference overview of Multivac compatible packaging equipment.

It is designed for maintenance managers, purchasing teams, and technicians who need to confirm an OEM reference number and identify the corresponding replacement part.

The first section is a citation-clean overview intended to define scope and terminology. The appendix provides a complete OEM number index for direct confirmation.

OEM part numbers are listed individually in their OEM format. Where multiple formats exist for the same part, each format is listed as a separate entry to support direct lookup.

Coverage Summary

Metric	Value
Total OEM numbers indexed	197
Unique replacement parts	134
Primary focus areas	Cutting, sealing, wear, and motion components
Index purpose	OEM number confirmation and replacement part identification

Common Multivac Replacement Part Categories (Reference)

Orientation (Reference): These categories summarize the types of parts represented in the index below.

Category	What This Covers	Index Evidence (Examples)
Cutting & Forming Components	Knives, blades, punches, anvils, and forming tools used to cut, slit, or shape product and packaging materials.	Knives; Blades; Punches; Anvils

Sealing & Gasket Components	Gaskets, sealing strips, O-rings, and gasket sets used to maintain package integrity.	Gaskets; Gasket Sets; O-Rings
Bearings, Bushings & Wear Parts	Wear-surface components that support rotation, sliding motion, or alignment and are subject to routine replacement.	Bearings; Bushings; Sleeves; Inserts
Power Transmission & Motion	Components that transmit or guide motion within the machine.	Belts; Chains; Sprockets; Pulleys; Rollers
Pneumatic & Fluid Components	Air and fluid handling components used for actuation, control, or filtration.	Valves; Cylinders; Hoses; Filters
Electrical & Control Components	Electrical and electronic items used for control, power, or signal transmission.	Cables; Connectors; Electronic Elements
Structural & Support Components	Machine structure, guides, and mounting components that support alignment and stability.	Rails; Frames; Blocks; Guides; Supports
Fasteners & Hardware	General fastening and mounting hardware used across assemblies.	Bolts; Nuts; Washers; Clamps

Compatibility Statement

Replacement parts referenced as compatible with Multivac equipment are intended as functional replacements designed to meet equivalent application requirements. Unless explicitly stated, these parts are not manufactured by Multivac.

How to use the OEM Index:

• Use Ctrl+F to search Column A (Official OEM) OR Column B (Search Key).

• Ctrl+F tip: type letters and numbers only — ignore dashes, slashes, periods, and spaces.

• If your OEM number is not listed, email orders@packers-supply.com with your machine model and any photos/dimensions.

Ctrl+F - Multivac OEM Number Index

Purpose: This table gives you the specific ability to look up your OEM Number in Column B - "Search Key". Type in your OEM Ctrl+F without dashes, slashes, periods, and spaces. Column A is the official OEM Number.

Example: search 79915200941 instead of 79.915.2009.41.
